Gary (Paul),

As you know, I got from A what Mitchell sent Paul on Vallee. Paul did not ask you not to redistribute, and I've suggested this to him. This can reach you before he can, for I know when you are due back. You may not have time to think about it before you do what I think could be wrong.

I will not take time for all the arguments, but ask me if you disagree. The most immediate is the possibility Mitchell decided to let us have what he should not have to entice us into using it to strengthen his hand and argument. As I elimonated the names of those defamed by Bringuier (O in NO) when the government did not, I think we should, especially s ince there seems to be no need and only PH and JG and I have done any work on this, I think we should avoid this possible trap.

It would also be unfair to a sick man, could reach Skolnick, who 'll do anything to get attention, etc.

Hurriedly,

HW
